

Yellow Comet Sub instructions

step 1

glue
toothpick
X-Acto knife
rubber cutting mat

parts (printed on 200 gsm paper)

Yellow Comet Sub
In the 2001 Game Boy Advance fan-based strategy game Advance Wars, the **Sub** is a very powerful weapon in naval battles.
With its **Torpedo**, it can severely cripple other ships, and its ability to **Dive** makes it invisible for the enemy, unless they position a unit right next to it. And even then, only another **Sub** or **Cruiser** can attack it when it's submerged.

P. 1/1

Print the parts on thicker paper, and get out your papercrafting tools again! ;o)

step 2

part 2
part 1
part 3

Cut out, pre-shape and assemble parts 1-3...

step 3

part 2
part 1
part 3
part 4

...and then glue them together as shown here. Then cut out part 4...

step 4

...and then glue it to the bottom of the hull.

step 5

part 5

Cut out the 4 slits on the sides of part 5, and then glue it together as shown here.

step 6

Pre-shape the center of parts 6 and 7 around a toothpick as shown here...

step 7

part 6
part 7

...fold parts 6 and 7 double (but DON'T score or fold the bigger glueing tabs on the sides!)

step 8

part 6
part 5
part 7

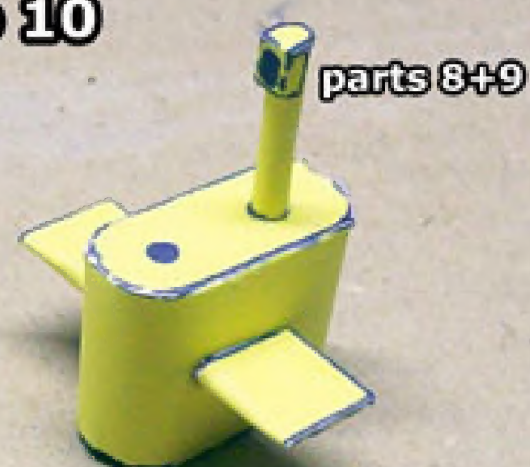

...and then glue them to the sides of part 5 by pushing the glueing tabs through the slits.

step 9

part 8
part 9

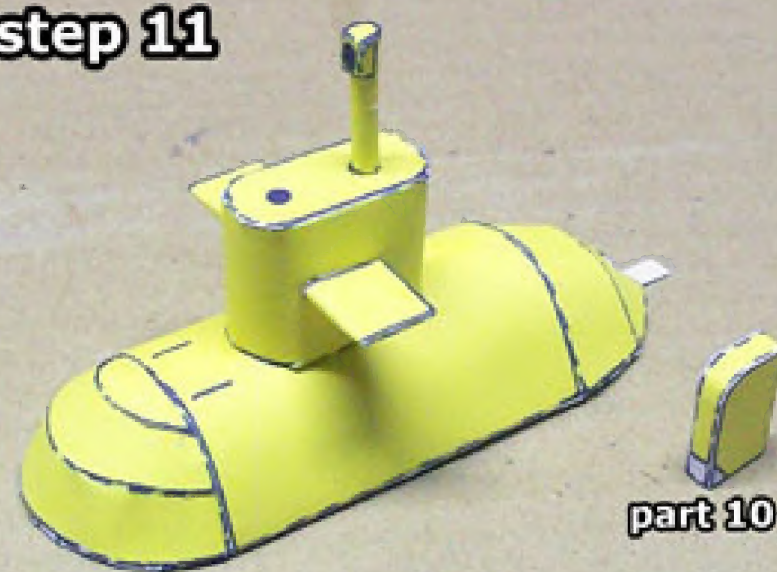

Cut out and assemble parts 8 and 9...

step 10

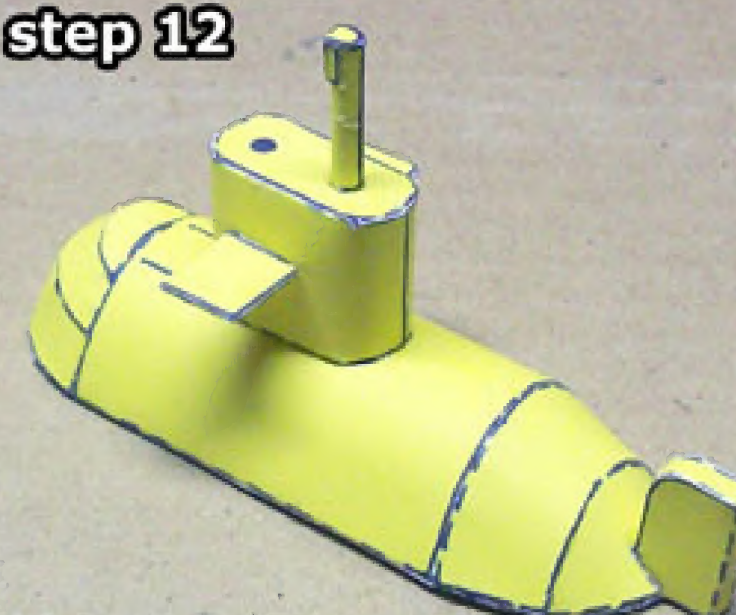

...glue part 9 on top of part 8, and then glue the periscope on top of part 5.

step 11

Glue the tower on top of the hull, cut out and assemble part 10...

step 12

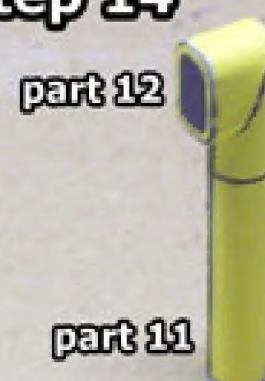

...and then glue it to the back of the Sub.

step 13

Parts 11-13 are for when the Sub is submerged, and you can only see its periscope. Start by cutting out and assembling parts 11 and 12...

step 14

...and then glue them together as shown here.

step 15

The periscope can stand on its own, but if you want, you can glue it to part 13 for a better balance. ;o)

step 16

Yellow Comet Sub

Thank you for building a Ninjatoes' papercraft model!
